K. of P. Officers Given Fine Welcome

Many Visitors From Pass Towns
Came to Coleman to Meet Su-
preme Officers of Pythian
Order

On Wednesday evening, Oct. 26, Sentinel Lodge was specially favored with a visit from Supreme Chancellor Commander R. S. Witte, of Milwaukee; Supreme Keeper of Records and Seals Harry M. Love, of Minneapolis; Grand Chancellor Commander W. T. Bauman, and Grand Keeper of Records and Seals J. C. Wainwright of Calgary. This is the first time that Sentinel Lodge has been favored with a visit by their supreme officers.

During the evening fifteen candidates were given the first degree in the mystic work of the Knights of Pythias. After the degree work a banquet was held in honor of the visitors. About 120 from Bertha, Lethbridge, Hilderberg, Blairmore and Coleman partook of the good things provided by some of the sisters of Progressive Temple No. 3. Following the banquet a program of music and speeches was given. The chairman, Bro. W. T. Bauman, G.C.C., in a few brief remarks, introduced the speakers. Bro. Wainwright, G.K.R.S., spoke on the order, and stated that those who were not present had missed a wonderful time in not hearing the message the supreme chancellor commander had for them.

Bro. Love, S.K.R.S., spoke at length on the connection that the Rathbone bible had to the Pythian order; also he was pleased to be present and thanked all for the kind welcome extended. The chairman then introduced Supreme Chancellor Commander Witte, who spoke and outlined with great effect the relationship of each auxiliary of the Order to the parent organization. After reciting the work of the Pythian Sisters, Uniform Rank and the Knights of Khosranah, he spoke upon the relation of the Insurance department to the safety of every Pythian family. He told how this department had paid more than \$60,000,000, or an equivalent of \$3,000 every day for fifty years to shelter the widows and orphans of Knights who had laid down life's labor.

Pythian ideals are essential to the real Canadian gentlemen of today—to ideals of Canadian citizenship in the cultivation of these ideals is the vital inspiration of Pythianism. Pythianism, he stated,

Attending Convention

Coleman teachers who are attending the teachers convention at Lethbridge to day and Friday are Miss D. Pendlington, of the high school, Miss Florence Cox, Miss Gladys Price, Miss M. E. and E. Dunlop, Mrs. Clifford, Miss May Muir, Miss Gladys McKay and Miss Edith Haysom.

plays a wonderful part in the great things of life, not only to the lives of those within its works, but reaches out to those who are not within its household of faith. Its tenets are inspiring—it reaches the hearts of men—it mingles with the life blood of humanity. It answers in the affirmative the world old question "Am I my Brother's Keeper?" It is an organization whose purposes are true patriotism and real Canadianism of the most exalted type. It teaches us to be interested in public affairs, to be eager for social betterment of the communities in which we live, to be honorable and just in business, to be loyal to home and friends, to respect the laws of our land, to love our flag and to uphold our government. It also teaches us to have faith in God and faith in our fellow men. "Do noble things, not dream them all day long."

In the name of friendship, charity, and benevolence, the growth and prosperity of the order we love, he stated, I beseech your conscientious support and honest efforts in the upbuilding of the order; the increase of its influence for good; the attainment of a higher and loftier plane; ushering in a new era, filled with the richness of a nobler manhood and inspiration to higher things; a growth in membership and in excellence:

Friendship—each for the other our hope; Charity—our mentor; Benevolence—the key to a greater happiness.

The supreme chancellor's speech was received with great applause and brought the brothers to their feet singing for "He's a Jolly Good Fellow."

The following artists contributed to the program of music and all numbers were well received and earned several times: Piano selection, Mr. Evan Smith; comic song, Bro. Ernest Hill; song, Bro. Alf. Phillips (Silver Medalist); trumpet solo, Bro. J. E. Lowe; drum, Mr. Cecil Rees and Bro. Alf. Phillips.

The members of Sentinel Lodge thank all visitors and brothers who assisted in making this program a success.

—Contributed by P. Locke.

NOTICE

All items of local news interest will be welcomed, and we would be pleased to receive them by telephone. Items announcing or advertising any gathering for which an admission fee is charged will be charged for at the rate of 10c per line. There is no charge for items which are considered as news, such as reports of local happenings, socials, visitors, etc.

Hallowe'en Provides Thrills for Youngsters

Juveniles Have Merry Time Going Around Begging for Treats—
Older Boys Do Some Damage to Aerial Wires

The observance of Hallowe'en was marked by very little damage to property as far as Coleman was concerned, which is as it should be. Too often in the past Hallowe'en was used as an excuse for older boys and girls, who should have known better, to cause considerable annoyance and damage which had to be made good by those who suffered.

The younger children who love to dress up in any disguise they can contrive, and with holes cut in a piece of cloth for a mask, were a broad making uninvited calls on the stores and residences, and in most places were kindly received and their appeals for "Tricks or Treats" were rewarded with peanuts, apples, candies, nickels and dimes. At one home they called at the children had to sing a verse of "O Canada" to earn their treat, while at another place they were regaled with the best fudge they had ever tasted. One little girl had a sack longer than herself to carry her treats, while others tried to ring in on the same route twice by donning a complete change of clothes. But they were enjoying their childish fun and getting a big thrill out of it, reminding older people of the days when they enjoyed the delights and the fun of Hallowe'en. Various homes around town had children's parties to mark the occasion.

Later reports state that several aerial wires of radio outfits were cut on Monday night, apparently by some of the older boys, causing several dollars damage to each of the owners whose wires were cut.

Mine Workers Union of Canada Recognized by Mine Operators in Taber District

Jas Sloan of Lethbridge, organizer on behalf of the Mine Workers' Union of Canada, District No. 1, has been in Taber for the past week, organizing the miners in and around Taber, and has set up a local, Unit No. 31, covering all the miners in the Taber District, and has also made agreements between the mine employees and the mine operators in this district, which has received the recognition of the mine operators. These mines have been unorganized since the strike in 1924, at which time they were under the U. M. W. A.

At last Sunday's meeting of the Mine Workers' Union, P. S. Begg was elected to represent the "above" Unit as delegate to the second annual convention of the Mine Workers' Union of Canada, District No. 1, to be held in Calgary on November 21st.

It is fifty-one days to Christmas. Order personal greeting cards now.

Ukrainian Hall to Open on Sunday Next

Coleman People Cordially Invited
to Attend Sunday Evening Concert

With considerable enterprise, the Ukrainian people of Coleman have erected a fine community hall in East Coleman, which will be formally opened on Sunday evening at 8 o'clock. The committee has issued a general invitation to all the people of Coleman to attend, and a fine concert of a musical nature is being arranged.

It is worthy of note that the labor in erecting the building was given free by the members of the Ukrainian Society; and they will now have a very fine hall in which to hold their gatherings. Steve Danyluk, chairman of the committee, and Peter Bahrijluk, who was in charge of the carpenter work, express their appreciation of the willing help given by their people, to whom the completion of the hall gives pride and satisfaction.

High School Entertains

Coleman high school staff and students first Hallowe'en party was held on Monday evening in the Oddfellows hall, when they entertained the public school teachers and members of the school board. The hall was prettily decorated with colored streamers and subdued lights, while the usual decorations of spoons and hallowe'en hats added to the general atmosphere of the occasion. The games and ghost stories provided considerable amusement, and the evening concluded with a dance, terminating at midnight.

Honors were won by Miss Gladys Price, Emily Greenhalgh, Madge Halliwell, Adam Wilson, James Kilgannon and Leslie Emmerson.

Women's Institute Meet

A very interesting meeting of the Women's Institute was held on Tuesday evening of last week, Mrs. Luke Lindoe being the hostess. The annual meeting will be held in November, at Mrs. R. Hart's home. Regarding a child whose case had been reported, Mrs. A. Cornett, convener of child welfare, and Mrs. A. E. Graham were appointed to look into this.

Dealing with the history of the Women's Institute, a very interesting paper was read by Mrs. C. S. Ouimette, which was greatly appreciated. In the event of there being no school concert held before Christmas, the grade VIII medal won by Margaret Fairfull will probably be presented at the memorial concert.

Assisting Mrs. Lindoe in serving lunch were Mrs. W. J. Burns, Mrs. C. S. Ouimette and Mrs. W. John Sten.

Mountain Climbers

A party including Principal Hoyle, Hugh Dunlop and Dave Flynn made a partial ascent of Crow's Nest mountain last Saturday. Being late when they started, they were unable to make the high elevation of this lofty mountain, but they greatly enjoyed the outing, and intend to try and make the ascent to the peak of "Old Crow" at a later date.

A Turkey shoot will be held on Thanksgiving Day by the Coleman Rod and Gun Club, at 11 o'clock sharp. A hearty invitation is extended to all shooters in the Pass.

Council Meeting

A meeting of the town council was held last Wednesday evening, Mayor Burns presiding. The street lighting of the business area was discussed, and it was considered by the council that the cost of installing a complete lighting system would be too heavy at the present time, but one or two additional standards will be erected where most necessary.

It was also decided to acquire a piece of land for a pound, instead of using the present small piece of land just at the rear of the town hall, which is not suitable for this purpose.

The appeal of the provincial headquarters of the Red Cross Society was read by Secretary Ford, and a donation of \$10 authorized.

Armistice Service on Thanksgiving Day

Memorial Service to Honor War
Dead Will be Held in Salvation Army Citadel

The memorial service under the auspices of the Canadian Legion will be held at 11 a.m. on Thanksgiving Day, Monday next, to which all citizens are invited.

Mayor Burns will be present, and the services will be conducted by Capt. Hind, while the lesson will be read by the Rev. H. J. Bevan. The newly organized town band will be present, and Legion members and ex service men will attend.

Following the service, the Legionaires will proceed to the cemetery to place wreaths on the graves of departed soldiers, and the "Last Post" will be sounded. It is expected that as many citizens as possible will attend the service in honor of those who gave their lives for the Empire.

At the Theatre

The big holiday special for the Palace is the Dempsey-Tunney fight pictures, which will draw a big crowd. The program will be suitable for ladies as well as gents, as the feature picture "Metropolis" will also be shown. Admission 50c and tax. A matinee will be held in the afternoon for children, admission 10c, adults 50c and tax.

ROSE TEA "is good tea"

RED ROSE ORANGE PEKOE is extra good.

The Misuse of Gasoline

The number of tragedies reported in Western newspapers this fall as resulting from the careless use of gasoline and oil is simply appalling. Loss of life, terrible injuries to others, and destruction of valuable property to the toll which has been taken, and hardly a week passes that the total does not mount still higher.

The Fire Commissioner for Saskatchewan in a recent radio address stated that, on the average, twenty-five lives are lost annually from this cause alone. It is probable that the loss is just as great in the other western provinces.

In one small district in Saskatchewan three such disasters occurred within a few days of each other, resulting in four persons receiving severe burns, the complete destruction of one home, and damage to another. In another district two boys were burned, and in a third district a young lad was so severely burned that he died. All these accidents occurred at practically the same time.

Although gasoline may be sold in red tin or containers plainly marked as to their contents, the fact is that the gasoline is all too frequently applied into other receptacles which are not marked or properly sealed. It is frequently mistaken for coal oil, and even for water.

Furthermore, many people forget, and an even larger number of children do not know, that the greatest danger from these liquids arise from their vapors. It is the vapor from gasoline mixing with the air which becomes a highly explosive article, and the lighting of a match or an electric light means a fearful explosion. Even a can which has contained gasoline, but is emptied, may still retain a quantity of this vapor, and bringing such a vessel near a lighted lamp, a stove, or a lighted match may mean an explosion.

Gasoline and coal oil should not be used to light fires. To do so is to invite disaster. Gasoline is now largely used in cleaning clothes, but every body so using it should exercise the greatest care that there is no flame or fire of any kind near at hand. In fact, gasoline for cleaning purposes should only be used outdoors and away from all fire. If the weather is such that outdoor work is impossible, then do the work in a room in which there is no fire and which is lighted by natural daylight or an incandescent electric light. Never have a lighted lamp, candle, or match in any way with gasoline. It should be hung outdoors in the open air to dry and be left there until the last vestige of the gasoline fumes has disappeared.

When one stops to realize that it is the vapor from gasoline mixed with air and exploded by a tiny electric spark in our motor car engines that drives these cars along our streets and highways at high rates of speed they will gain some idea of the terrible power of this vapor and realize how great care should be taken in its use.

Possibilities Of The North

Says Hudson Bay Railway Will Open Up a Great Area.

"In five to ten years the Hudson's Bay Railway will be amply justified in new towns established, power plants created, the country utilized and the possibilities of the northern Canada developed," said James A. Green, retired from rank, of Cincinnati, who was a visitor to W. J. Lloyd recently.

It was the beginning of a new era, said the American visitor, which would revolutionize the whole life of the Dominion. The railway would open up a great area, of tremendous waterpower and enormous lakes with almost unlimited supply of fish of the finest quality.

It was as good a grass country as Texas, Mr. Green said, and there were thousands of square miles fit for cattle. He pointed to the future possibility of domesticating the caribou, as had already been done in Alaska, and so provide a meat supply "world without end."

Many children die from the assaults of worms, and the first care of mothers should be to see that their infants are free from these pests. A vermifuge that can be depended on is Miller's Worm Powders. They will not only expel worms from the system, but act as a health-giving medicine and a remedy for many of the ailments that beset infants, enabling them and easing their lives.

Injured Woman Travels By Plane. Advised by her doctor to get to London as quickly as possible, a woman who had been injured at the winter sports in Switzerland, reached Paris by train, thence flew to London on an improvised cot on an airplane. She made her way before starting.

Free suggestion to amateur deer hunters: If it doesn't wear a vest, a necktie, a moustache or a hat, and doesn't smoke a pipe, it is probably a cow.

Resumes Career As Sailor

Prince George Takes Post On British Flagship Nelson

Our sea dogs of the British Navy stroked their whiskers in glee when Prince George resumed his active career as a sailor, for there has been reports that he might forsake the navy for the army.

The Prince, who ranks as a lieutenant, is now attached as French interpreter to the staff of Sir Robert Brand, commander in chief of the Atlantic-Jah, which will pay him one shilling and six pence, or about 35 cents apiece, in addition to his regular pay as an officer.

Prince George will be stationed aboard H.M.S. Nelson, Britain's newest flagship which became the "first" flagship on the anniversary of Nelson's historic victory over the Franco-Spanish fleet off Cape Trafalgar 122 years ago.

Just before starting for Portsmouth, the Prince witnessed a spectacular fire which resulted in his own experience in China on New Year's Eve, 1926, when he was attached to H.M.S. Hawkins, and with other members of the crew fought a Hong Kong fire, saving guests to escape.

Touchy Corns Relieved

By Marvel Liquid

Instantly the aching stops—the pain goes away. This is the marvelous effect of Putnam's Corn Extractor. Pains the corn or callous with "Putnam" and the relief is instantaneous. After a few applications of "Putnam" the corn will drop out. No pain, no blistering, no redness, no swelling, no work—a sure cure for corns. Get a bottle from any drug store. Refuse a substitute.

Keeps Tab On Geese

Jack Miner Receives Many Tags From Birds

Regularly each year Jack Miner places metal tags on the legs of geese which sojourn in the Minor Bird Sanctuary on their migratory north and south. It is interesting to note how regular these birds are in their habit of returning year after year to the same place to rest. Jack Miner recently received 28 tags from George Cotter, of Fort George, on James Bay. These tags were collected by him; and were in number and date as follows: 2, 1922; 3, 1922; 1, 1924; 1, 1925; 15, 1926; and 5, 1927 (replied).

TRIALS OF INDIGESTION

Errors About This Trouble Into Which People Fall

Many people so far misinterpret the digestive system as to treat it like a machine; not as it is, a living organism, thus irritating it into work again by the very means they employ. The stomach needs help at all times, but a study of the process of digestion will show that assistance, as commonly taken, are seldom necessary and often harmful.

To safeguard your digestion the diet must be controlled. Overeating is always harmful, but one must assimilate enough food to supply the needs of the body. Remember, the blood has to carry nourishment to all parts of the body and fuel for energy. Hence when the blood becomes weak and fails to do its work, indigestion arises. Therefore the remedy for indigestion is to build up the blood. If you suffer from any form of indigestion, choose your diet carefully and take wholesome nourishment. Above all, eat healthfully and regularly by taking a course of Dr. Williams' Pink Pills. Then under the influence of the new blood, your digestive system will respond naturally, your appetite improve and your food will do you good. So begin to improve your digestion by starting to take Dr. Williams' Pink Pills now.

You can get these pills from your druggist or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Has Had Long Rest

But by James Watt, in 1769, the "Sun and Planet" engine is being ordered again after forty-two years' rest. The engine is now in the science museum at North Kensington, and was put in motion recently for the first time since 1855, when it was dismantled and moved to the museum.

Confidence is like a camera photo; if broken it may be mended, but it invariably shows where the crack was.

Trade depression in Chile is ascribed largely to new laws passed or planned.

Luxury In Air Travel

New Pullman Airships Will Carry Passengers in Comfort

A journey from Great Britain to Australia in nine days by a luxury Pullman airship will be possible in three years' time, according to the Imperial Airship Mission. These airships, two of which are at present under construction in England, will be able to carry 100 passengers in utmost comfort.

On board each traveller will have his own cabin, and there will be comfortable dining saloons, lounges, and shower baths at his disposal. Even a dance floor will be contained within the air liner, which will be 750 feet long and able to carry 150 tons. Three times a week would be made on route for the purpose of refueling in Egypt, India and Ceylon.

During the past three years work on the best scientific minds in Great Britain had been inspired into producing airship construction, and the two airships that were now being built for the British Government were designed on purely scientific principles.

They would successfully meet all conditions of varying weather and temperature they would have to endure. Difficulties of housing and mooring airships had also been overcome. Major Wood, a very brilliant Air Force officer, has been a moving tower entirely suitable for its purpose. The nervousness of only ten men were now needed in mooring an airship and the airship could be moored in almost any weather.

Captain Geoffrey Hughes said that, although it was hoped that the first of the airships would reach Australia from England within three years, it would be probably seven years before the air service could be definitely established.

Fun Came High

Chas. A. Levine Sends a Lot of Money On His Trip To Europe

Charles A. Levine had \$125,000 worth of fun during the past summer. Battering the expense of his flight to Europe in the Lockheed monoplane, Columbia, and his subsequent air tour of the continent, the first trans-Atlantic Air passenger said he had spent about \$125,000.

"I had a lot of fun, no matter what it cost," he said.

The first school in the Netherlands for civil aviation is being financed through efforts of the Rotterdam Aero Club which has been assured that no competing school will be permitted.

Confidence is like a camera photo; if broken it may be mended, but it invariably shows where the crack was.

Minerals In Dead Sea

British Syndicate Secures Concession To Work Ancient Body Of Water For Mineral Contents

A concession for reutilizing the vast mineral resources of the Dead Sea, The London Sunday Times learns, has been awarded a British syndicate, and the American and continental nations have been definitely rejected.

The syndicate which has secured the concession will be a subsidiary company of the Imperial Chemical Industries, Ltd., a great chemical combine with a capital of £35,000,000, including the Hammer and Mond interests.

Expert examination, according to The Times, has shown that the Dead Sea is a geologically inconvertible source of minerals and that its exploitation will probably be the making of Palestine.

Might Solve Problem

Empire Manager Agency Proposed In Old Country

The London Daily Chronicle, editorially, under the caption, "Maritalism Agencies," says "As everyone knows, there are more women than men in this country, and in some of the Dominions there are more men than women. Here is a surplus of women, many of whom, it is whispered, want husbands; whilst men in the Dominions are eating their hearts out for lack of wives."

Quarter-master General in India, says that a remedy may not be an Empire maritalism agency, conducted strictly on official lines, by the Council of Empire Settlement, with photographs and testimonials, previous experience not required. It seems an almost feasible plan.

An Oil For All Men.—The sailor, the soldier, the fireman, the lumberman, the oil-drum laborer and all who are exposed to injury and the elements will find in Dr. Thomas' Electric Oil a true and faithful friend. To ease pain, relieve colds, dress wounds, rub aches, lumbago and overexertion, it is the best. Therefore, it should have a place in all home medicine chests and be amongst those taken on a journey.

Canada's Furniture Industry

B.C. Is Third and Manitoba Fourth in Number of Factories

The Dominion Bureau of Statistics in their recent report on the furniture industry in Canada for 1924 and 1925 supply the following figures which cover the greater part of the furniture made in Canada. There are some woodworking factories, however, that do cabinet work as a sideline which the statistics do not include under other classes of manufacture. Out of a total of 326 establishments, 208 were situated in Ontario, 65 in Quebec, 25 in British Columbia, 17 in Manitoba and the remainder scattered among the other five provinces.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Expeller.

Timing Speed Of Animals

Spot-men along the Pacific coast have been using their stop watches on fish and will be soon. A grizzly bear, purged through a narrow canyon by an automobile, ran 45 miles an hour. The average barouche can swim as fast as 70 miles an hour. The seal, usually considered very speedy in the water, requires four minutes to swim a mile.

The visitor (to convict): What are you doing—sneezing?

Hard case: No, sneezing.

Slow In Investigating Scheme

Alberta Only Province To Express Opinion On Rural Credits

In the absence of legislative action on the part of one or more of the provinces, the Dominion Government has not made any effort to organize a rural credits board and, in other ways, prepare to put legislation of last session into operation.

The statute provides that before the rural credits board may function in any province, that province must pass the Rural Credits Act. Any doubt which might exist as to the right of the Dominion to control the scheme hinges upon concurrent legislation.

So far the provinces have not had an opportunity to enter the scheme. While the statute was passed, practically all of the provincial legislatures had prorogued until 1928.

Only one province has indicated an opportunity to enter the scheme, and that is Alberta. None of the others has expressed an opinion.

Officials of the Finance Department stated that nothing would be done until one of the provinces enacted the necessary legislation and that the central board and the rest of the organization would then be set up.

The groom at a wedding is like the engine of an automobile; never new but very necessary to make the thing run.

An Oil That Is Priced Everywhere—Dr. Thomas' Electric Oil was put up on the part of one or more of the provinces, the Dominion Government has not made any effort to organize a rural credits board and, in other ways, prepare to put legislation of last session into operation.

Minard's Liniment for Chills.

PREDICTS RISE OF POPULATION FOR DOMINION

Toronto.—"There are an Anglo-Saxon race, which does not exist and never did exist," declared Hon. J. G. Gardiner, Minister of Agriculture, in the course of an address delivered at the Empire Club weekly luncheon here. The subject of the speaker's address was "Building a Nation in the Northern Half of the North American Continent." After tracing the history of the British people for a considerable period of time, Mr. Gardiner said:

"There is not a Veikman, or a Devonshireman, or a Highland Scotchman with one drop of Saxon blood in his veins."

Mr. Gardiner stated that the problem confronting Canada is not the essential racial difference from those through which the United States had passed, and were, after all, merely a repetition of the experience of the rest of the great nations.

He predicted a population of 23,000,000 in the Dominion by 1950.

Saskatchewan, said the speaker, was the most cosmopolitan in point of population of any province in Canada.

"I sometimes think we are endeavoring to build a nation backwards," said Mr. Gardiner.

Consideration of Canada's problems on a broad national basis rather than territorially, encouraged him not only of so-called Anglo-Saxon, but of other selected immigration movements, and the development of the vast resources in the territory stretching across Canada from either side of the Hudson's Bay, particularly in the northern half of the continent, by building of additional channels of transportation, were urged and discussed by the Western speaker.

"The great problem before Canada today, belonging just as much to the West as to all Canada, is how we can best, within the British Empire, build a nation on the northern half of the American continent," Mr. Gardiner declared.

"There are many ways in which our country can be carried to the heights of wealth and power," said the speaker. "We in the West are known as an agricultural people, and we are the first to realize and be proud of that fact. But we do not feel that agriculture should be exaggerated in importance to the exclusion of industry or any other national development."

A Grain Armada

Over 100 Ships To Carry Wheat From Vancouver To Great Britain
Vancouver.—More than 100 ships have been chartered to carry 20,000,000 bushels of wheat from Vancouver to the United Kingdom and the Continent during November, December and January, according to space fixtures, it was announced at the Vancouver Merchant Marine Smuggling Hospital last night. The fleet, there will be forty vessels loading here with grain during the month, lifting approximately 10,000,000 bushels.

To date very little space has been taken for Oriental shipments which are, at present, only small parcels there. During December and January, however, it is expected that Japanese requirements will begin to move in volume.

Strike Still On

Some Coal Miners Are Working In Harvest Fields

Drumheller, Alta.—The situation in the Drumheller coal fields where a strike has been in progress for some days, remains unchanged from the first day. There has been no excitement of any kind. The operators are standing solidly against the miners and have refused to meet them in joint session.

The strike has had one good result—it relieved the shortage of labor in the threshing fields, many of the striking miners going out at \$6 per day.

Approximately 1,000 miners in six mines went out on strike demanding recognition of the Canadian union.

No Unemployment in Quebec
Quebec.—There is practically no unemployment in the province of Quebec, according to Louis Frigon, deputy minister of labor. "Never before has the province been through such an era of prosperity, judging by the demand for labor," he stated, commenting on conditions in the district of Montreal conditions are very good and according to the report of the provincial employment bureau there, thousands of men are finding work each week.

W. N. U. 1705

Inquires About Pension Plan

Yukon Taking Up Question With Minister Of Labor

Ottawa.—Percy Beale, gold commissioner for the Yukon, is in Ottawa to take up with the Minister of Labor, Hon. Peter Heenan, the question of applying the old age pension legislation to the Yukon.

Commenting on the visit of the gold commissioner, Mr. Heenan declared that, in conference with the premiers of the prairie provinces, he had been convinced to believe that co-operation between them and the Federal Government in the matter of establishing old age pensions in their respective provinces would shortly produce practical results. The minister cited the example of British Columbia in reticence of the suggestions made that the scheme was unworkable.

"Whatever may be said against old age pensions and the fifty-five year rule," he said, "the fact remains that the old people in British Columbia are now receiving their cheques, and that is highly important."

Asking Parliament To Approve Trade Treaty

Canadian-Czechoslovakian Agreement Is Being Drawn Up

Ottawa.—Parliament will likely be asked at the coming session to ratify a trade agreement between Canada and Czechoslovakia. Negotiations, it was learned, are now well under way for a trade treaty between the two countries on the basis of the mutual exchange of most favored nation treatment.

At present a provisional treaty only, for the regulation of trade relations, is in effect. This provisional agreement, signed about a year before Christmas last, will expire next spring.

Under the terms of the provisional treaty now in force Canada extends its protection to the Czechoslovakian Republic the rates of the intermediate tariff. Czechoslovakia, in return, extends most favored treatment to a selected list of Canadian products, comprising in all 71 items of the Czechoslovakian customs tariff.

Smallpox In Ottawa

Mild Epidemic Results In Order For Compulsory Vaccination In Schools

Ottawa.—Compulsory vaccination for all school children in Ottawa is in progress in the face of a mild epidemic of smallpox in the city as ordered by the city board of health.

Four free vaccination bureaus will be opened immediately and no child will be permitted to attend school or other educational institution unless provided with a certificate of vaccination.

This is the first time in the history of Ottawa that such an order has been issued. In 1918, when there were 101 cases of smallpox reported in the city and suburbs, Dr. T. R. Lomer, city health officer, informed the board today. However, smallpox hospital is filled to capacity with 21 cases, the largest number in the past ten years.

Carolist Movement Grows

Severe Censorship Has Been Established In Roumania

Vienna.—Reports from Belgrade say a severe censorship has been established at Bucharest on all news. Telephone communication between Belgrade and Bucharest has been cut off and only official telegrams are arriving at Belgrade from the Roumanian capital.

The Carolist movement, however, is known to be assuming a most serious character, and disappointment with the government is destined to be increasing. Many of the Carolist supporters have been arrested.

Another dispatch says "violence has broken out in Bucharest."

Wheat Frustrate Robbery

London.—Plans for a holdup of the clearing house for city banks were revealed today when it became known that following information received by the authorities an increased number of police officers and detectives have been stationed in the vicinity of the clearing house every morning for some time while clearings are being made.

Wheat Yield Record Broken

Lethbridge.—All wheat yields in a season of amazing returns went by the board when J. F. Cook, of Marmora, 23 miles South of this city, reported a return of 176 bushels on a piece of fallowed land measuring slightly over two acres. Mr. Cook vouches for the truth of the yield.

Great Issues Behind Flag Controversy

But Question Settled By Common Sense Is Comment Of Press

London.—"Common sense is a term used in practically every English newspaper editorial in the discussion of the settlement of the flag controversy in South Africa."

"Common sense has won the day," declared the Daily Telegraph, which describes the result "as a complete endorsement, honorable to both sides to the flag controversy." "If the flag controversy had gone to a referendum (as had been proposed by Premier Heriot) all unprejudiced observers believe great damage would have been done to the relations between the two white races in South Africa," the Telegraph says.

The Daily News appreciates the fact that there were great issues behind the flag controversy, "otherwise it would be difficult to write with entire gravity about the details which might so profoundly have affected the destiny of half a continent."

The News admits, however, that men have fought and died for less substantial issues.

WOMEN ASK FOR FRANCHISE FOR QUEBEC PROVINCE

Ottawa.—"The Dominion Government has not the right to go beyond its jurisdiction and interfere with that jurisdiction which under our constitution has been given to Quebec or any other province."

So stated Premier W. L. Mackenzie King in reply to a deputation from the Canadian Alliance for Women's Votes in Quebec, who urged that the Dominion Government take some action to remedy the wrong of the franchise in Quebec, which was not given to women in that province.

"I am afraid," continued the Prime Minister, "that the Government of the province of Quebec might not appreciate any attempt by us to tell it what it should do."

This did not mean that the Dominion Government, he said, was not sympathetic to the request of the deputation; but it meant he was in mind that under the constitution of our country certain rights were given to the federal parliament while other rights were under the jurisdiction of the respective provincial governments. If federal elections, women could vote, but the Dominion Government could not proceed to interfere with the right of any of the provinces in respect to the question as to whether women should vote in provincial elections.

"I think you are in the wrong court," interjected Hon. Ernest La Prairie, minister of justice. The provinces were just as supreme within the particular ambit of their jurisdiction as the Federal Government was within the authority conferred upon it under the British North America Act.

Immigration Service Chief

J. Bruce Walker, chief of the Canadian Immigration Service in Europe.

who declares Canada is seeking healthy and self-reliant settlers from Great Britain.

Washington.—Lack of an adequate and experienced landing crew at Ottawa caused the navy department to abandon the proposed flight of the dirigible Los Angeles to Canada.

The dirigible, carrying Sir Philip Sassoon, British under secretary for air, and Assistant Secretaries Warner of the Navy, Davidson of the War Department and McCracken of the Commerce Department, was to have made the trip across the international boundary for the first time to give Sir Philip an opportunity to inspect and observe the ship. He probably will be taken instead on a local flight from Lakewood, N.J.

A crew of between 200 and 300 men is required to land the Los Angeles. This number would not be available at Ottawa during the time when the Los Angeles would have arrived, the navy said in calling off the flight.

A crew of between 200 and 300 men is required to land the Los Angeles.

</

NOTES AND COMMENTS

Let's have a political truce and abstain from newspaper discussion along party lines for three years, suggests Hon. Geo. Hoadley. To which the opposition would be in hearty accord were they in power.

You cannot reap rewards, unless you do something,

worthy of reward. Give to the world the best that is in you and the best will come back to you.

The scenery of the Rockies has attractions for hoboas as well as tourists, judging by the number that can be seen taking the air riding on box cars.

Example or actions speak louder than words, and our interests are largely centered in the town or city in which we live. Anything which tends to develop or increase business in our own community is good for the community at large, as it means more revenue and indirectly more benefit for the entire community.

If buying out of town of articles which can be purchased here at similar prices means that a store has to close and its owner and employees move elsewhere, it means that less number of people to help paying the running expenses of the town, and therefore increased pro rata for those who remain. Its easy to figure out without the aid of pencil and paper.

John Herron returned to Pincher Creek last week from the Conservative convention at Winnipeg and the reception at Calgary apparently well pleased with the world at large, judging from the cheerful smile and the "all's well with the world" kind of atmosphere which he radiated.

No Cabarets Here

During a case at Cherkwell, London, in which a night club dancer appeared, a barrister said to Mr. Pope, the magistrate, "No doubt, sir, you have spent your holidays abroad and seen the cabarets there?" Mr. Pope: "I have not been to any cabarets in my life. When I go abroad it is to make myself acquainted with the Rockies of Canada."

Monday Next is Thanksgiving Day and a Public Holiday

The annual road race of the Lethbridge Young People's Association will be held on Thanksgiving Day, and all entrants must have amateur cards and be registered under the A. A. U. of Canada, the fee for which is 60c, and for boys under 18 years of age no fee is charged. Entry forms for the race can be obtained from R. Fergie, physical director, Lethbridge.

Pictures Are Appreciated

The All-British picture, "The Flag Lieutenant," shown at the Palace last Friday and Saturday, was well enjoyed, and proved that this type of picture would be immensely popular with theatre goers. The scenes depicting life in the Navy were remarkably good, and there was something out of the ordinary in the picture, which was quite refreshing, there being no bloodthirsty villain to try and kill the hero. Instead the hero is shown as trying to help a brother officer to achieve distinction by sacrificing himself, and the plot is very interestingly worked out. The Palace management is to be complimented on the type of pictures they bring in for their week-end performances and throughout the week, and shows that they are making every effort to give the people of Coleman the best pictures that can be obtained.

Preparing Musical Program

Mr. W. J. Harris, violinist of this town, and Mr. Glynn Thomas, of Pincher Creek, a young pianist of note, are preparing a series of recitals to be given in the towns of the Pass. A fine program is being worked up, including some of the best-works of the old masters, together with some of the more modern compositions. They will be assisted by a cellist of considerable ability and in all probability will hold a series of chamber music recitals of the first rank.

Better the Man with His Eye to the Sky than the Man with His Ear to the Ground

ALL through its long, successful history, General Motors of Canada has had its eye to the horizon . . . listening not for what followed, but looking always toward the thing ahead.

And General Motors has seen many of its visions realized. . . .

It has seen a great industry grow up in Canada to supply the Canadian family with a means of transportation to meet its needs and resources, to answer the desire for style, dependability, luxury.

It has seen, in the Canadian Fisher Body plants, the perpetuation of Canadian ideals of craftsmanship.

It has seen, in the General Motors Research laboratories, the development of countless advances and refinements on which much of modern motoring comfort depends.

It has seen, on the General Motors Proving Grounds, the proof of principles which are now accepted factors in automobile design and construction.

It has seen the triumph of co-operative purchasing and manufacturing methods with their resultant economies to be shared with the buyers of General Motors cars.

And the eyes of General Motors are still to the horizon . . . still seeking new ways to improve General Motors cars and to place the cars within reach of ever-widening circles of Canadian buyers.

United Church Notes

The two services for public worship next Sunday will both have some special significance. In the morning an effort will be made to follow out the idea of Thanksgiving. Thanksgiving Day makes its own appeal and there should be a good attendance.

The evening service will be arranged around the idea of remembrance of Armistice Day. References will be made to that event and its meaning for today. A cordial invitation is extended to all who care to attend these services.

There will be a brief service on Thanksgiving morning at 10.15. This will allow those who wish, to attend the veterans service at eleven o'clock.

Weather permitting, the Trail Rangers will meet at the club rooms on Friday afternoon at half past four for a hike. It is planned to make the top of Saskatoon the halting place. The boys will carry lunch and are asked to wear a warm sweater or a mackinaw.

The attendance at the Church

school is now well past the hundred. There is urgent need of at least two more teachers. It is hoped that two people really interested will offer their services for this bit of work.

Mooseheart Day Celebrated

On the night of Oct. 27 the women of Mooseheart Legion entertained the brothers and their children to a "hot dog" supper and social. During the evening the children gave a concert. Songs, dances and recitations were rendered in a pleasing manner. Everybody declared it was a great treat, the crowd keeping up the fun until midnight.

Anderson-Kinnear

There was a quiet wedding at the United Church Manse on Wednesday evening when Mr. Archie M. Anderson and Miss Annie L. Kinnear were married. Miss Margaret Fairfull and Mr. Willie Anderson were witnesses. The ceremony was performed by Rev. H. J. Bevan.

Regimental Piping Awards Announced

1 Inter-Regimental Trophy presented by E. W. Beatty, president of the Canadian Pipe Band. 2 J. L. Charles Dunbar, winner of the trophy. 3 Piper Neil Sutherland, winner of second trophy.

As a question of military status was involved in the regimental piping competition held at the Banff Highland Gathering in September, the final decision as to the holders of the trophies was referred by mutual consent to the Minister of National Defence, under whose authority the competition was held. The decision has just been given by Major-General Thacker, Chief of General Staff, to the effect that the trophy given by Mr. E. W. Beatty, chairman and president of the Canadian Pacific Railway, as originally offered to pipers from Highland Regiments, be awarded to Lieutenant Charles Dunbar, D.O.M.—Argyle and Sutherland Highlanders of Canada, Hamilton, Ontario—this being accompanied by a cash prize of \$100.00. Under this

rule Pipe-Major McPherson, of the Toronto Scottish Regiment, ranks for second prize of \$50.00 and Pipe-Sergeant Hugh McBeth, of the Calgary Highlanders, for third prize of \$25.00. Piper Neil Sutherland, of the Twelfth Signal Battalion, Canadian Corps of Signallers, Regina, is awarded the first place in the competition for a trophy of equivalent value as Champion Pipe Player, Canadian Militia, the trophy to be held by the contestant who wins it in two successive competitions and the trophy remaining the property of the unit to which the winner belongs. Neil Sutherland receives \$100.00 cash as winner. Second in this competition is Pipe-Major James Hamilton, of the Canadian Fusiliers, London, Ontario, who receives a substantial cash prize.

Tune in on a Westinghouse for Sport

The roar of the bleachers, grandstand, cheerleader, players—a piercing galaxy of sound squelching every idle thought—thrilling every nerve with intense excitement.

You'll get this pandemonium—loud, clear and distinguishable on a Westinghouse.

You'll listen to the crowds, the teams, jams, touchdowns, just as the microphone hears it in the field.

You'll get the full thrill—every sound—every word the announcer speaks, just as if you were there watching the "big boys" play.

A Westinghouse does recreate music—noise or anything that is broadcast—pulsating with life, thrilling with power, clarity and pep.

Try a Westinghouse Model 57 in your own home—that's how to be convinced.

Cuticura Loveliness A Priceless Heritage

For generations mothers have been using Cuticura Preparations for all toilet purposes, and have been teaching their daughters that daily use of healthy hair, smooth skin and clean, shining, soft, and healthy skin, and the Cuticura soap and cream, should be a part of their daily life, and the Cuticura as a toilet powder.

Write for Cuticura Book by Mail. Address: Cuticura Sales Co., 1000-1001, 1002-1003, 1004-1005, 1006-1007, 1008-1009, 1010-1011, 1012-1013, 1014-1015, 1016-1017, 1018-1019, 1020-1021, 1022-1023, 1024-1025, 1026-1027, 1028-1029,
